Tip of the Month

Before you decorate, inspect electrical items and discard any with damaged wires. If you're using electrical products outside, make sure they are marked "for outdoor use."

What's Current

OCTOBER 2024

2024 ANNUAL MEETING WRAP-UP

NOVEC's 2024 Annual Meeting was held Sept. 18 at NOVEC's Technical Center in Gainesville. Board Chairman Wade House and President and CEO Dave Schleicher addressed the crowd.

House complimented the Cooperative's growing financial success and expressed his appreciation for the hard-working efforts of its employees. The board chairman also reflected on the life of Dexter Odin, the Cooperative's long-standing corporate attorney, while also introducing his successor, Doug Ross from Odin, Feldman & Pittleman, P.C.

Schleicher discussed the Cooperative's metrics around financial

performance, reliability, customer satisfaction, and safety. His review of 2023 included a discussion of the major business challenges of data center construction and their business impact, the delivered cost of electric service, and new energy delivery technologies. Schleicher closed by highlighting the many ways NOVEC supports the communities it serves.

Co-op members reelected Mark Bruno to the District 4 seat and Wade House to the District 5 seat on the NOVEC Board of Directors.

NOVEC employees (from left) Roy Robinson, Roohi Noor Mohammad, Jessica Torres Cervetto, Will Vaughn, and Anna Dawson (sitting) greet and register members as they arrived for the Sept. 18 Annual Meeting.

OCTOBER IS NATIONAL

CO-OP MONTH

Electric cooperatives are not-for-profit, community-led utilities. Because we are a co-op, we can adapt to our local members' needs, providing the programs and services you care about most. That's the power of co-op membership.

DON'T LET SEASONAL CHANGES GIVE YOU A SCARE

Fall has arrived, and that means cooler temperatures and fewer hours of daylight. As people switch from air conditioning to heat, leave lights on longer, or put up outdoor decorations that require electricity, energy bills can spike. Avoid increased costs by analyzing your home energy use with NOVEC's Energy Resource Center. In addition to the whole-home analyzer, individual calculators are available for lighting, heating/cooling, appliances, and televisions. You can also see how a programmable thermostat could help you save energy dollars.

To access the Energy Resource Center and learn where you could save the most on energy, visit novec.com/save and click "Visit the Energy Resource Center."

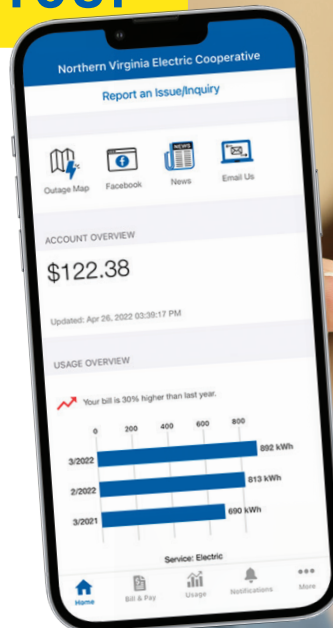

ON THE GO? SmartHub goes with YOU!

NOVEC's SmartHub delivers convenience with these payment and online services:

- Pay your bill.
- Check your energy use.
- Report an outage.
- No credit card payment fees.
- Personalize alerts and more.

Easily access it through NOVEC's mobile app or at novec.com.
